SUPPLEMENTARY INFORMATION

FOR

LEGISLATIVE REVIEW

2001-2002 EXPENDITURE ESTIMATES

PREFACE

This document has been produced by the Status of Women as a departmental supplement to its Printed Main Estimates. It is intended to provide background information on the department, which complements the information already contained in the Printed Estimates of Expenditure. It is hoped this additional material will assist members of the Legislature in their review of the department's estimates.

The contents of this supplement are organized into three parts. The first part provides an overview of the Status of Women's 2001/02 Estimates of Expenditure. The second part provides program and financial information including details of staffing requirements and expenditures. The information in part two is organized on the basis of existing main appropriations so that it will provide an easy cross-reference to the Printed Estimates of Expenditure. Part three provides a five-year historical budget comparison. A standard glossary of terms is also included at the end of the document.

This document has been developed to assist members of the Legislature in the review of the Printed Main Estimates. It is hoped that it will provide a meaningful information supplement and that it will meet the needs of the users of the information. I welcome feedback as to the usefulness of this supplementary information.

Honourable Diane McGifford
Minister Responsible for the Status of Women

DEPARTMENTAL OVERVIEW

STATUS OF WOMEN

HONOURABLE DIANE McGIFFORD, MINISTER

**Manitoba Women's Directorate - Theresa Harvey Pruden, Assistant Deputy Minister
Manitoba Women's Advisory Council - Kim Clare, Chairperson**

HISTORICAL BACKGROUND

Since the establishment of the Women's Bureau in 1972, the need for a woman's voice within government has remained. A specific structure within government to support the Minister responsible for the Status of Women was initiated in 1984 to ensure the integration of women's concerns in the policy development and decision-making processes of government.

The Manitoba Advisory Council on the Status of Women was established through an Order-In-Council in 1980 and in 1987, the Advisory Council on the Status of Women was legislated as an arms-length body appointed by the Minister responsible for the Status of Women. In 1991, its name was changed to the Manitoba Women's Advisory Council.

In 1986/87, Treasury Board amended the structure of the Main Estimates to reflect the creation of a separate department called Manitoba Status of Women. It received independent status as a department in the 1989/90 Estimates process.

VISION

The Manitoba Ministry of Status of Women envisions a society which has achieved social, economic, and political equality for women.

a) Manitoba Women's Advisory Council

The Advisory Council advises government, through the Minister responsible, on matters pertaining to the status of women in Manitoba. The Council gives voice to community concerns on existing and emerging issues and works in co-operation with women and women's organizations to support and facilitate community activities aimed at improving the status of women.

b) Manitoba Women's Directorate

The Women's Directorate works within government to influence government planning and decision-making to ensure that the unique needs and concerns of women are integrated into public policy, legislation, and programs. The Directorate works with other government departments and the community to promote measures that will help women achieve equality.

SUB-APPROPRIATION 22-1B
MANITOBA WOMEN'S DIRECTORATE

OBJECTIVE:

The Directorate's long range plans include four main goals:

Economic security/economic equality for women.

Society free from violence against women

Health care system that is respectful and responsive to the needs of all women

Government decision-making that is inclusive of women through the routine use of gender- inclusive analysis

ACTIVITY IDENTIFICATION:

The Women's Directorate carries out its mandate in three main ways:

Represent women's interests: The Directorate represents women's interests by informing government of the impact on women of its programs, policies and legislation and by raising awareness of emerging issues and expressed priorities to influence the public policy agenda. The Directorate works to secure the inclusion of women's needs and priorities in policy decisions of the government. The Directorate collaborates with Federal/Provincial/Territorial Status of Women Ministries across Canada on issues of common or national interest.

Enhance services and opportunities for women: As a central agency the Directorate liaises with sectoral ministries to ascertain what services are available to women as well as to assess how effectively the services are provided. Both in partnership with other departments and independently, the Directorate works to improve existing programs to better serve women and also create new program models that meet women's needs and further women's equality.

Raise Awareness: One of the primary roles of the Directorate is to educate and inform both government and the public of women's issues. It also works to educate the public, both men and women, about the reality of women's lives in a way that will lead to greater equality and informed choice for women.

EXPECTED RESULTS:

Through formal consultation such as the Economic Symposium on the status of Manitoba Women, along with Ministerial priorities and the ongoing process of issues identification, the Directorate has identified four areas of priority; 1) economic security for women, 2) violence against women, 3) women's health, and 4) gender-inclusive analysis, within which the following results are expected:

Informed/responsive Government about the differential impact of policies on women; appropriate actions taken through the use of gender-inclusive analysis of policies and programs.

Better Informed citizens with a range of information that relates to improving the quality of life for women in Manitoba. For example, Invest in Your Future (financial literacy for young women), Keeping Safe at Work.

Improved services to victims, justice system response and prevention strategies to address violence against women through justice system interventions that balance punishment with reduced recidivism, effective victim support and promotion of violence prevention through monitoring and analysis of existing services, alternate program models, trends and statistical information.

Economically secure women with women continuing to make gains with respect to their present and long-term economic well being. The success women have recently achieved has not been shared equally among all women and while some women have been successful in accessing higher education and higher-paying jobs, others continue to face particular challenges in achieving economic independence, especially if they have dependent children and/or other dependants. Initiatives such as Training for Tomorrow, Trade Up to Your Future, Power Up the Business Mentorship program and the Economic Indicators Project will help achieve this outcome.

Women sensitive health sector where government and the health care sector understand the unique health care needs of women, thereby promoting women's inclusion in system changes and advances. This outcome relates to improving the quality of life for all citizens in Manitoba, particularly women. The Directorate has begun gender-inclusive analysis training with the Regional Health Authorities and Manitoba Health Executives and has partnered to develop the provincial Women's Health Strategy.

SPECIFIC INITIATIVES:

Keeping Safe at Work: A program to help women maximize their personal safety at work.

Power Up: An introductory computer and Internet training initiative for adult women in Manitoba.
